## INTRODUCTORY.

1358776

The forty-eighth volume of the Indianapolis City Directory is herewith presented to its patrons and the public.

We desire to call the attention of the public to the fact that, after carrying in the directory the superfluous abbreviations of Haughville, Mt. Jackson, West Indianapolis, North Indianapolis and Brightwood for the past two years, after they had been annexed to the city, we have discontinued their use, as the public has familiarized itself with the localities, making it unnecessary to print them any longer.

Indianapolis has experienced a remarkable commercial advancement and prosperity in the past year. Numerous manufacturing and mercantile industries have been induced to locate here on account of its superior advantages as a center for distributing as well as receiving supplies.

Other evidences of the prosperous condition of the city are the records of real estate transfers and building permits for the past year. The sales of real estate for 1901 exceed \$13,000,000, which is \$2,500,000 more than in 1900, and over \$3,000,000 more than in 1899.

Building interests have experienced greater activity than ever before, notwithstanding the increased price of all materials, and the record of building permits issued for 1901 shows that there has been nearly \$4,000,000 invested in this manner during the year.

We estimate the increase in population for the past year to be about 6,500.

# Indianapolis City Directory.

## 1902.

### STREETS AND AVENUES.

THE Street Directory is an alphabetical arrangement of the names of the Streets and Avenues of the city. By the decimal system of numbering houses recently adopted in this city, one hundred numbers are allotted to each square. On streets running north and south the numbering begins at Washington street. The streets running east and west are numbered East and West from Meridian street. All other streets not commencing at either of the above points are numbered in accordance with this system. The names and numbers of intersecting streets and avenues are given in the order in which they occur, which enables one to tell between what streets a certain number is. For instance, you have 820 Harlan street: by reference to the Street Directory, you find 800 at Lexington av. and 900 at Pleasant street; consequently, the place you wish to find is between Lexington av. and Pleasant street.

The marginal letters of the alphabet refer to the nearest street car line. For example, you wish to go to 520 E. Sixteenth: you refer to Sixteenth street in the Street Directory and find that 520 would be between Central av. and Park av. and the letter "B" in the margin, then by referring to the street railway lines you find the letter "B" is the Central av. line, which is the nearest car.

## WHY

Be so careful in all the details of a real estate transaction and yet neglect the question of **TITLE?** Because it is largely a matter of opinion, anyway. This Company issues a regular policy of Insurance instead of an opinion.

# Butler College

---

BUTLER COLLEGE, the department of Liberal Arts of the University of Indianapolis, is affiliated with the University of Chicago on terms that are a guarantee that its undergraduate work is practically on a par with that of the University of Chicago, and that it is so recognized by the University. This affiliation presents the following advantages to students :

1. At each commencement of the College, the Bachelor's degree of the University is conferred upon the member of the graduating class designated by the College as having sustained the highest average rank during the whole college course.

2. Every recipient of the Bachelor's degree from the College receives a certificate showing that he will be entitled to the Bachelor's degree of the University upon the completion of one quarter's (twelve weeks') additional study at the University.

3. Free tuition for one quarter in the University is granted to those who *within one year after graduation from the College* present the above mentioned certificate and become candidates for the Bachelor's degree of the University.

4. Three fellowships, yielding free tuition for one year (three quarters), are granted annually to graduates of Butler College, nominated by the College. The holders of these fellowships may take advantage also of the offer of free tuition to all graduates for one quarter, thus securing free tuition for four quarters. (The tuition fee at University of Chicago is \$40 per quarter.)

The regulations to which the College submits in consequence of the affiliation in no way compromise its independence, but are intended solely to enable the University to assure itself that the standard of work is being maintained at its present grade.

## WHY

Be so careful in all the details of a real estate transaction and yet neglect the question of **TITLE**? Because it is largely a matter of opinion, anyway.

This Company issues a regular policy of Insurance instead of an opinion.

## WHY

Be so careful in all the details of a real estate transaction and yet neglect the question of **TITLE**? Because it is largely a matter of opinion, anyway.

This Company issues a regular policy of Insurance instead of an opinion.

## WHY

Be so careful in all the details of a real estate transaction and yet neglect the question of **TITLE?** Because it is largely a matter of opinion, anyway. This Company issues a regular policy of Insurance instead of an opinion.
